Subject: Monthly Water Balance Information 2015-12-01

Good Morning,

Attached is the Monthly Water Balance information for November 2015. This includes projected hydrology for the current year and 2015 observed conditions February through October. The projected data is based on project operation forecasts and information prepared in November (TUCP Hydrology Compliance Sheet 2015-12-01.xlsx).

Reclamation did not prepare a 99% exceedence forecast for November, but we have included data prepared by DWR for a 99%.

Attached is a copy of a 90% (Nov90_WY2016.pdf) and 50% (Nov50_2016.pdf) exceedence forecast summary prepared by the Central Valley Operations Office in November along with the corresponding input data in a separate Excel spreadsheet (BOR Nov forecast input data 2015-12-01.xlsx) for your use.

Thank You,
Stacey Smith
